## Technical Skills

**Languages:** JavaScript, Typescript, C, C++, Python, Java, Dart, HTML, CSS

**Technologies:** Next Js, React Js, React Native, Angular, Express JS, AWS, Supabase, Django, Tailwind CSS, Flutter, Figma, WordPress, Docker, Google Cloud Platform, MongoDB, MySQL, PostgreSQL, Redis, REST, Firebase, Prisma

## Education

### University of Texas At Arlington

May 2028

*Bachelor of Science in Computer Science*

*Arlington, Texas*

- Relevant Coursework: Data Structures and Algorithms, Machine Learning, OOP Integrity, Software Engineering

## Experience

### Software Developer Intern

June 2025 – Present

*Clozure Inc.*

*Austin, Texas*

- Developed and reviewed production-level code using **Flutter**, **Firebase**, **Python**, and **Dart**, contributing to features deployed to end users on a weekly release cycle.
- Collaborated with senior engineers to **debug**, **test**, and **optimize** application functionality, achieving a less than **5% bug rate** for new feature releases.
- Leveraged **Jira**, **Figma**, and **Git****Hub** to coordinate sprints, track development progress, and facilitate cross-functional collaboration between engineering and design teams.

### General Director, Software Engineering Committee

August 2025 – Present

*ACM Create at UTA*

*Arlington, Texas*

- Directed **7+ Project Managers** and **50+ Student Engineers** in delivering **10+ Production-Quality Applications** with a combined user base of **1,000+ students** and campus organizations.
- Mentored **7+ Project Managers** in **Scoping**, **Leadership**, and **Technical Execution**, resulting in **100%** of teams delivering production-ready projects each semester.
- Oversaw delivery of **10+ Full-Stack, Mobile, Backend, and API Projects**, creating real-world engineering opportunities for **50+ Students** across multiple majors.

### Full Stack Developer Intern

May 2025 – July 2025

*Pioneer Investing Inc.*

*Dallas, Texas*

- Built and optimized **Full Stack web applications** using **Next.js**, **TypeScript**, and **Node.js**, delivering features from concept to production within weekly sprint cycles.
- Integrated **AWS services (Lambda, S3, DynamoDB)** to implement scalable backend APIs, improve load times by **30%**, and enhance application reliability.
- Applied best practices in **CI/CD** and **cloud deployment**, streamlining the release process and ensuring high availability for production applications.

### Freelance Full Stack Developer

January 2025 – June 2025

*Zeru Studio (Freelance business)*

*Dallas, Texas*

- Designed, developed, and maintained **Full Stack** websites for local churches and small businesses, improving their online visibility and increasing user engagement by **40%** on average.
- Integrated third-party tools like **Google/Vercel Analytics**, **Stripe**, and **Mailchimp** while developing **Mobile-First UIs** using Next Js, React Native, achieving **100%** responsiveness across devices.
- Optimized websites for **local SEO**, increasing organic traffic by **25%+** and improving search visibility on Google Maps and local directories. streamlining online engagement and increasing conversions by **45%**.

## Projects

### Serenity | *Next js, React Js, Typescript, Tailwind CSS, Supabase*

**Project Link** | August 2025

- Developed and deployed a **Full-stack** Bible study web app using **Next.js**, **Typescript**, and **Supabase**, enabling users to read, highlight, and share scripture interactively
- Integrated third-party services, **Stripe for payments**, **Clerk for Authentication**, etc., to enhance functionality and user experience

### Woven Apparel | *Next Js, Typescript, Express Js, PostgreSQL*

**Project Link** | January 2025

- Developed and launched a **Full-stack** e-commerce platform for Christian apparel using **Next.js**, **Express Js**, **Typescript** and **PostgreSQL**, generating over **\$1,000+ in revenue** in the first **60 days**.
